

SPARK GAP

Vol. 33, Issue 5, May 2016 *MARC - Serving Central Indiana Communities for thirty-three years*

On Our MARC:

Ladies and Gentleman, start your radio!!

May starts a summer of activities. We have the Dayton Hamfest in May, the Strawberry Fest and Field day in June. September brings the Heartnut Fest and the Radio Club yearly picnic. I hope everyone will get a chance to stop by to as many activities as possible.

Over the last few months, I have realized that life is a gift. Take the time to enjoy it. Don't put something off until tomorrow as tomorrow may never come. Spend the time enjoying every day to the fullest.

Please keep Sam Carter in your thoughts and prayers. Sam had a mild stroke.

No speaker is scheduled for May due to Dayton. If there is anyone in the Club that would like to speak to the group that is not attending the Hamfest, please let Ron K9THR know.

Brian Herbert, has asked me if there are a couple operators willing to partner with the Boy Scouts on some activities in 2016 to promote STEM activities as well as Amateur Radio.

One of the biggest events they are planning is to launch a weather balloon in August at Camp Ransburg in Bloomington. They will do the project to take photos and video of the curvature of the earth. This has been done by numerous groups in the past and they usually track the payload as it returns to earth by tracking a cheap cellphone with GPS. He is hoping to possibly use a small transmitter to track it if possible. If there is anyone who may be interested in a project like this he would love to connect with them. They are also planning the event to coincide with the meteor showers in August so he thought it might be fun to do some transmitting off the showers that evening if possible.

They also have a rocket launch planned for June and that may be a fun time to do a little field operating if someone is interested in that. They are doing the launch Saturday, June 18th from 1-3 PM at the football practice field just north of the football stadium at Franklin HS. If you are interested in helping please let me know or feel free to send him an email to thinbluebbq@gmail.com.

Hope to see you on Saturday.

Jacki, KI6QOG
President

ARRL EXPO at Dayton Hamvention® to Incorporate International Interests

ARRL EXPO -- the ARRL's "show within a show" -- at Dayton Hamvention® 2016 will incorporate the interests of the International Amateur Radio Union (IARU) and of several IARU Member Societies. These will include the Japan Amateur Radio League (JARL), which will be accepting applications for JARL awards; the Deutscher Amateur Radio Club (DARC); the Qatar Amateur Radio Society (QARS), and the Radio Society of Great Britain (RSGB). Hamvention takes place May 20-22 at Hara Arena, near Dayton, Ohio.

Visitors also may have cards checked to qualify for various JARL awards, and, once you've completed an application, JARL representatives can issue some popular JARL awards (AJD, WAJA, ADXA) on the spot. JARL also will be accepting applications for the IARU Region 3 Operating Award. Certificates will be mailed to applicants after Hamvention.

ARRL staff and DXCC volunteer card checkers will offer DXCC card checking and award application processing. Use the Online DXCC tool and save money on your application! Bring a printout of your application, card list, and cards -- in the order entered into the Online DXCC. ARRL members also may drop off their QSL cards to be sent through the ARRL Outgoing QSL Bureau. Sort cards by DXCC entity.

Greeting visitors on behalf of the IARU will be President Tim Ellam, VE6SH/G4HUA; and Secretary Rod Stafford, W6ROD; IARU and ARRL President Emeritus Larry Price, W4RA, and technical representative Peter Chadwick, G3RZP.

ARRL International Affairs Vice President Jay Bellows, K0QB, will also be on hand at ARRL EXPO.

Hamvention will host an International Relations booth within ARRL EXPO's international row to welcome and greet convention visitors from abroad.

For full details about ARRL activities and programs at Hamvention 2016, visit the ARRL EXPO web page.

INQP HF Stations

Working HF radio is in vogue with many MARC members this month. Saturday May 7th dawned as Steve Carmean-K9DY and Jack Parker-W8ISH cruised down the new I-69 to Vincennes, Indiana to participate in the Indiana INQP contest. The two day statewide contest has hams around the state trying to make as many contacts with hams in the other ninety-one counties. Extra points were given this year for contacting the original 15 Indiana counties as the Hoosier state celebrates the Bicentennial. Steve and Jack took their effort one step further by setting up at the George Rogers Clark Memorial in Vincennes. They offered their contacts extra credit for adding Knox County to their list and by activating the Memorial as one of the National Parks on the Air locations.

Steve spent the day taking 20 meter contacts while Jack logged dozens of contacts on 40 meters. They used portable vertical antennas, their small 100 watt rigs and batteries to operate from the field. Their park location drew lots of contacts as well as bugs hiding in the grass. That lent a new meaning of having your radio bugged. Fortunately, one neighbor lady came by and sprayed our crew with a vanilla bug spray. It didn't improve the band conditions but did help thwart more bug attacks.

Next up on the HF bands is helping to work the W9IMS special event station for the Indy 500 and then the Strawberry Fest and Field Day 2016. Time to experience the joy of talking to the world on HF.

I'm EXTRA Ignorant!

By Dan Romanchik, KB6NU

On Sunday, I received the following e-mail from a reader:

"Just wanted to let you know I passed the General exam using your study guide. It was very helpful. I am now generally ignorant whereas before I was only technically ignorant. Ha!"

My reply to him was:

"Well, if you're generally ignorant, I guess that makes me EXTRA ignorant!"

This isn't just a joke--being ignorant is part of the hobby. Amateur radio operators will always be ignorant about something or other. Even if you could master every facet of the hobby at some point in time, your mastery would be short-lived as the technology continued to advance.

Over the course of my amateur radio career, we've gone from equipment that primarily used vacuum tubes, to solid-state gear that first used discrete transistors and then integrated circuits, to software-defined radios. I could have, at some point, simply given up on the new technology and still enjoyed amateur radio. Some guys do that, and that's OK. It is only a hobby after all.

I'm not one of those guys, though, and if you're not one of those guys, then you have to resign yourself to being ignorant. But, that's a good thing, as long as you realize that you're ignorant. Realizing that you're ignorant will spur you on to learn new things and accept new challenges.

Recently, I realized that I'm mostly ignorant about satellite operation. I know some of the basics from having read articles and writing about the topic in my study guides, but I have never made a contact using a satellite. I think that might be one of my next challenges. With the advent of CubeSat, there are many new satellites up in the air and many more opportunities to have interesting contacts.

So, what are you ignorant about? By that I mean, of course, what's going to be your next challenge in amateur radio?

When he's not challenging himself with new things, Dan falls back on something he knows pretty well--operating CW. You'll find him mainly on the 80m, 40m, and 30m bands. Dan is the author of the "No Nonsense" amateur radio license study guides, and blogs about amateur radio at KB6NU.Com, and you can contact him by e-mailing cwgeek@kb6nu.com.

DXpedition Ditties

Across

1. Call heard during November
5. Bygone
10. CQ DX ____ of fame
14. "Hurry!"
15. Deleted HK0 last name

HAM QUIPS BY DICK SYLVAN W9CBT

HARLEY OSCILLATOR CIRCUIT

2016 ARRL FIELD DAY IS JUNE 25-26

HELP NEEDED FOR UPCOMING EVENTS

Ham Radio Volunteers are needed in all the public served events that we support.
These are:

May 28 - 500 Festival Parade

Jun 4 - American Diabetes Tour-de-Cure Bike Ride

Aug 1 - Indy Air Race

Sep 10 - Multiple Sclerosis Bike Ride

Oct 1 - Indianapolis Marathon in Lawrence

Nov 7 - Indianapolis Monumental Marathon

Contact is Mike Palmer, N9FEB ---- N9FEB@comcast.net

Michael R. Palmer, N9FEB
Marion County IN Events Coordinator for Ham Radio
7461 Hague Rd., Indpls, IN 46256
(317) 849-3602 home

INTERESTED IN UPGRADING TO GENERAL CLASS?

MARC is considering a general class licensure class at some point later this year.
Anyone interested should contact either Bruce Tisdale
(VicePresident@Midstatehams.org) or Jacki Fredericks (President@Midstatehams.org)
in regard to participating.

Additional details will be communicated based on the level of interest.

Remember Club Dues for 2016 are due; please see Cy Young N9CHY at the meeting Saturday.

2016 List of Hamfests in Indiana / Convention

□ 05/20-21-22/2016 Dayton Hamvention

Location: HARA Arena, Dayton, OH

Sponsor: Dayton Amateur Radio Association
